business

PRO WiFi makes it easy with:

Professional Installation

Our professional techs will set up, activate and configure the access points (APs) for your Optimum Business PRO WiFi system.

Hassle-Free Management

24/7/365 network management with around the clock tech support whenever you need it so you can focus your business.

Comprehensive Security

Secure Private and Guest network isolation combined with optional URL Filtering ensures safe and appropriate communications.

Improve Guest Experiences and Business Performance

A Competitive Advantage

For guests and customers who need to stay connected, complimentary WiFi is determining where they do business.

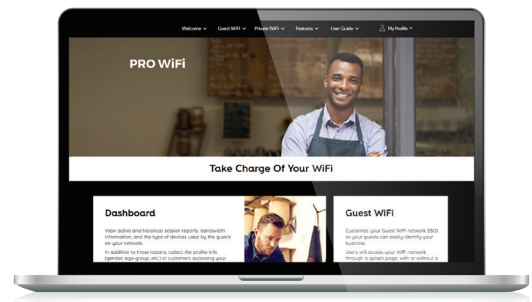

Effective Engagement Tool

Customize your login screen and portal with branding that's unique to your business' "look and feel."

Smart Marketing Engine

Complete with analytics to assist in promotional campaigns and guest notifications.

Optimum Business PRO WiFi is the reliable, secure, and manageable solution that makes always-on WiFi easy and affordable.

Sample of Guest Login Page

Available to current Business Internet customers. Services may not be available in all areas. PRO WiFi service is a turnkey wireless data network service that enables customers to extend their network at their location. Provision of PRO WiFi Service is subject to customer's agreement to Optimum Business's General Terms and Conditions of Service and Additional Terms and Conditions for PRO WiFi Service (see website). Installation fee applies. All trademarks and service marks are the property of their respective owners
